

Comprehensive Profile

Name: Pat Buchanan
Purpose: Historical Analysis

Date: 05/03/96
Code: 9326-492-29516

The purpose of this report is to provide insight into the personality and behavior of the individual being evaluated. This is not a pass or fail test, but rather a personality profile of a unique individual. This assessment is based upon an analysis of the client-provided handwriting sample and is intended for the sole and confidential use of the client.

The **Comprehensive Profile** is divided into four parts:

PART 1. Potential Strengths & Weaknesses (Page 2)

This one page chart provides a trait summary of the writer's personality by categorizing his/her potential abilities and limitations. By examining the number as well as the intensity of traits in each category, a quick assessment can be made as to where the writer can excel and where potential problems may arise. A compatible job or interpersonal relationship for this person should value and utilize as many of one's Strengths as possible; and, where one's Weaknesses will not interfere with success.

PART 2. Strengths and Weaknesses Explained (Pages 3-4)

This two page portion of the personality profile describes each Strength and Weakness in detail and prioritizes them in order of intensity. Realize that not all Strengths are beneficial to every situation and not all Weaknesses are detrimental. For example, a high score in 'Secretive' (listed as a Strength) enables a person to maintain confidentiality at work, but is undesirable in close personal relationships. In general, the stronger one's Strengths, the stronger one's Weaknesses also tend to be.

PART 3. Trait Analysis Graphs (Pages 5-8)

The graph appears on four separate pages - Mental, Social, Motivational and Emotional. This four-page graph measures more than 125 personality traits. When interpreting the graph, realize that there is no 'good' or 'bad' side and that the traits relate exclusively to the heading under which they appear. For example, under the heading 'Thinking Style' on the Mental Profile, we measure 'Flexible.' This relates specifically to 'Thinking Style' and does not indicate that the writer is necessarily socially 'Flexible.'

PART 4. Holland Model (A Career Assistance Guide) (Pages 9-10)

Research has established that personality is the single most important factor in job choice, satisfaction and long term success. These two pages classify all jobs into six career categories by their respective personality types. One's similarity to each of the six career categories is provided, along with a sample list of job duties typical of each personality type. This information is valuable in understanding how one's personality strongly influences the working environment one selects, and is best suited to.

Benefits:

- * Increase job satisfaction
- * Identify abilities & limitations
- * Explore career options
- * Evaluate job applicants
- * A tool for personal change and growth
- * Team building tool
- * Insight into interpersonal dynamics
- * Understand how personality affects job performance

Proper use of the tool:

It is essential, if you have not already done so, that you discuss this Comprehensive Profile with your Client Service Representative in order to properly understand and effectively use this profile. Fifteen minutes of consultation is provided at no additional cost. This assessment is a tool and should be used in conjunction with other data, observations and facts to support any decision.

Potential Strengths

Name: Pat Buchanan

Interpretation:

In the right settings, these are the Strengths this person will exhibit. The writer should be placed in, and seek out circumstances (career and relationships) where as many of these Strengths can be utilized and valued.

To a Very High Degree (Intensity 90-100):

- motivated; has an inner drive to achieve
- spirited and vivacious
- seeks leadership opportunities
- confident and self-assured
- strong concentration skills
- skilled in organizing projects and tasks

To a High Degree (Intensity 80-90):

- uses one's own abilities and judgments; independent
- copes well in stressful, demanding conditions
- observes details carefully; thorough
- skilled in simplifying difficult and complex problems and issues
- clear, concise and effective thinking; efficient mind
- self-controlled and disciplined
- goal oriented; thinks about long-term possibilities
- influential and persuasive
- investigative and curious
- patient; tolerant of slow paced laborious tasks
- withstands the scrutiny/criticism of others
- learns and comprehends quickly
- speaks to the point; direct
- able to discriminate and discern clearly
- maintains a hopeful and positive outlook
- pursues challenge; seeks opportunities to solve problems
- innovative and creative ideas and solutions
- demonstrates tenacity; persistent
- theories and conceptual possibilities appeal to this person
- task-oriented; motivated by goals and projects
- articulate; a skilled communicator
- clever and resourceful; shrewd

To an Above Average Degree (Intensity 65-80):

- able to analyze information and data
- adventurous and willing to experiment with new things
- intuitive, insightful perceptions
- willing to make decisions
- honest and sincere
- socially appropriate; sophisticated
- controlled behavior; premeditative
- handles situations diplomatically
- logical and factual mind
- benevolent; motivated by opportunities to assist others
- confidential; able to keep secrets

Potential Weaknesses

Name: Pat Buchanan

Interpretation: *In the wrong setting, these are the Weaknesses this person can exhibit. The writer belongs in circumstances (career / relationships), where as much as possible, these Weaknesses are not too detrimental; perhaps even advantageous. Example: Someone who is 'Impatient' should be placed in a fast paced work setting.*

To a Very High Degree (Intensity 90-100):

(None Identified)

To a High Degree (Intensity 80-90):

- inflated self-importance
- becomes intense too easily
- little consideration is given to the opinions of others
- questions the intentions of others; suspicious

To an Above Average Degree (Intensity 65-80):

- feelings too strongly affect person's judgment
- defensive; prepared to be criticized
- when frustrated, becomes critical
- won't reconsider once mind is made-up; somewhat stubborn
- avoids facing up to one's true feelings; represses
- becomes restless and irritable too easily
- inclined to contain emotions, to suppress feelings from expression

Holland Model

Matching Personality to Job Environments

Name: Pat Buchanan

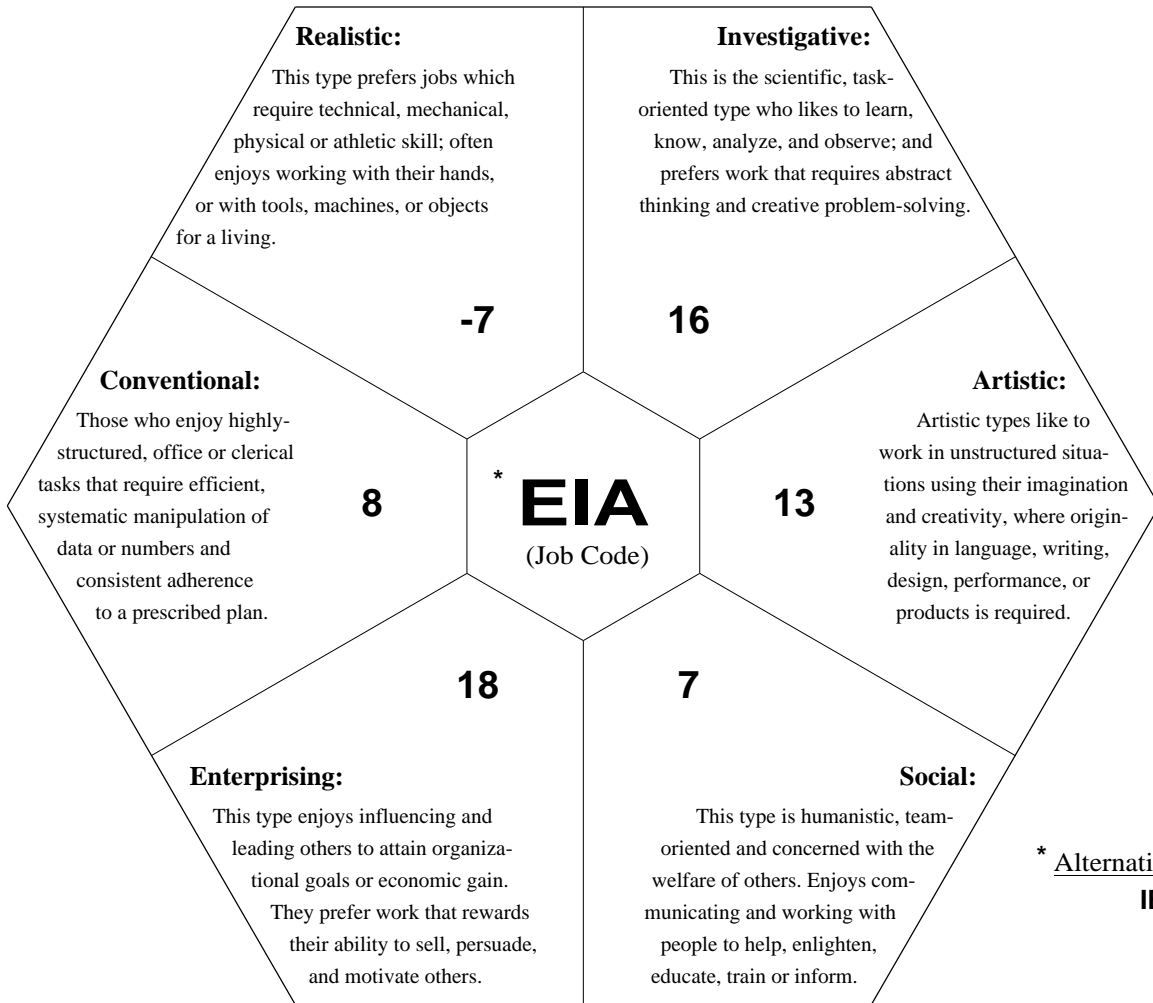

INTERPRETATION:

This model classifies all jobs, and their respective personality types, into six major categories. Adjoining categories are temperamentally most similar to one another, while those on the opposite end of the hexagon are least similar. In the center is the derived code identifying which three categories one most closely resembles. (This code correlates to specific job titles.)

SCORE INTERPRETATION:

1. Scores reflect one's level of interest & similarity to professionals in each category who are happy & successful. Scores reflect one's attraction or aversion to the six work environments. The higher a score, the lower other scores tend to be.
2. Extreme scores are neither desirable nor undesirable, but do represent strong reactions by the person to that work environment.
3. Scores over 20, or scores significantly higher than others, reflect an extreme example of that job/personality type; a 'specialist'.
4. Scores which are all close together reflect more of a 'generalist'; one who needs a mixture of several working conditions and environments for an ideal job. Examine how close or apart scores are from one another for additional insight.
5. **An ideal job should contain a mixture of one's higher scores, and should not involve aspects where one receives negative scores.**

(See next page for additional insight)

* Alternative codes exist when top scores are close in strength to one another

Holland Graph

Matching Personality to Job Environments

Name: Pat Buchanan

Interpretation:

Bars indicate one's similarity to the lists of personality traits. The work focus is a sampling representative of each category, and is based upon Dr. Holland's theory that people will be satisfied in work environments that reinforce their individual personalities.
