*The opinions contained herein are based upon a personality assessment derived from a handwriting sample. Like other personality instruments, these results should be used in conjunction with other sources of information. This person's scores match those who possess the below attributes to the degree described. This Assessment is intended for the sole and confidential use of the client.*

## Results:

## Analysis:

Honesty:	(Very Low)	Score matches those who are extremely deceitful and devious; those who falsify the truth for personal gain; evasive, cunning and dishonest.
Emotional Stability:	(Low)	Score matches those who are moody & unpredictable in their reactions; inconsistent emotional behavior; lacks consistent self-control; greater maturity is needed.
Judgment:	(Low)	Score matches those who have below average decision-making ability; undeveloped judgment; difficulty in selecting proper solutions to problems.
Substance Abuse Risk:	(Very High)	Score matches those who have addictive personalities; those who abuse alcohol, drugs or become dependent upon other types of self-destructive/addictive behaviors.

## Summary:

This individual rated poorly in all four categories. Apparently the writer is immature, under a lot of stress and is therefore unstable. Further, the person received a very low honesty score and profiled similarly to those who are substance users. With little doubt, this person needs a great deal of supervision and guidance.
